

## Opal Sealant

### Self-glossy dispersion

**Area of application:** For all plastic floorings, PVC, asphalt-tiles, rubber, perfectly sealed parquet, natural and artificial stone.  
Especially suitable for linoleum floorings.  
For the safe protection of heavily loaded floors against wearing and facilitates daily maintenance cleaning.  
Lifetime of parquet sealing can be extended essentially.

- Properties:**
- Conditionally polishable
  - Extremely wear-resistant
  - Non-slip
  - High-gloss film
  - Water-resistant and resistant to cleaning agent
  - dries glass clear and free from yellowing
  - It fills pores well due to high percentage of solid particles
  - Suitable for high-speed methods

<b>Technical data:</b>	<b>Nature of the product</b>	Liquid
	<b>Colour</b>	White
	<b>pH-value (concentrate)</b>	approx. 9
	<b>pH-value (1 %)</b>	approx. 8

**Application:** Clean the floor with a suitable basic cleaner, e.g. **PUDOL Basic Cleaner Beta**, wipe it with clear water and allow it to dry. It is important that all residues of the basic cleaner used are removed thoroughly!  
Homogenously apply a thin layer of self-glossy dispersion product on the neutralised, dry floor using a clean wiper of lambskin. Allow it to dry well.  
After a waiting time of at least 1 hour (depending on the local conditions) apply a second, thin film in transverse direction.

Application	Dosing
One application: enough for approx. 25 m <sup>2</sup>	1 l
Two applications: enough for approx. 25 m <sup>2</sup>	1.5 l

These are only guiding values; if the surfaces are very absorbent, higher consumption values must be planned.

The protective film can be wiped off with **PUDOL Combi 3 PLUS** after 2 to 3 days without impairing gloss and durability. For new application, at first wipe with clear water. Do not use cleaners that include phosphate or ammonia.

The self-glossy dispersion can be removed with **PUDOL Basic Cleaner Beta**.

**Storage:** Protect from frost!  
Always keep containers well closed, out of sunlight and out of reach of children. Do not expose to high temperatures.

## Opal Sealant

### Self-glossy dispersion

In closed original trading units at room temperature it is stable for at least 24 months.

**Packaging unit:**

1 l bottle, 12 pieces in cardboard box

Art.No.: 2630 - 00100

10 l canister, 60 canisters per pallet

Art.No.: 2630 - 01000

Other trading units on request.
