

## De-icing granules

### Grit granules

**Area of application:** Fast-acting de-icing granules, particularly suitable as a replacement for environmentally harmful road salt.  
Suitable for roads, pavements, paved outdoor areas such as schoolyards, driveways, entrances, car parks and loading bays.

- Properties:**
- Effectively prevents refreezing for a prolonged period
  - Safe for animal paws
  - Fully water-soluble – no drain blockage
  - No white residue
  - Effective at temperatures of up to -40°C
  - Immediate traction on icy surfaces
  - Harmless to asphalt, concrete (except types that are not resistant to de-icing agents), sandstone steps, walls and metals.
  - Plant-friendly

**Technical data:**

<b>Form</b>	Flakes
<b>Colour</b>	White
<b>Bulk weight</b>	800-900 g/l
<b>pH-value (10 %)</b>	approx. 8-10

**Application:**

Remove fresh snow.  
Evenly spread the de-icing granules over snow and ice (10 g/m<sup>2</sup>) to achieve optimal thawing and prevent refreezing for up to three days.  
Wear gloves during application.

**Storage:**

Always keep containers well closed, out of sunlight and out of reach of children. Do not expose to high temperatures.  
In closed original trading units at room temperature it is stable for at least 24 months.

**Packaging unit:**

5 kg bucket, 96 pieces per pallet  
25 kg bucket, 18 pieces per pallet  
Other trading units on request.

Item no.: 4700 - 00500  
Item no.: 4700 - 03000
