

## Carpet Spray Extraction Cleaner

### Spray Extraction Cleaner

**Area of application:** For basic cleaning and stain removal of colour-proof, textile floorings.

- Properties:**
- Foam-inhibited
  - Highly concentrated
  - Strongly dirt-releasing effect
  - Dry residue is neither sticky, hygroscopic, nor plastic
  - Remarkable resistance to re-soiling
  - Free from oxidation and reduction agents or other, colour-changing additives
  - Especially fabric- and material-friendly

**Technical data:**

<b>Nature of the product</b>	Liquid
<b>Colour</b>	Light green
<b>pH-value (concentrate)</b>	approx. 10
<b>pH-value (1 %)</b>	approx. 9

**Application:**

Spray extraction procedures in the industrial area are based on different methods. The Cleaner can be used either for the one-step-method (A: Cleaning liquid is sprayed under pressure in the fabric and sucked up with the dissolved dirt), or for the spray/rinse-suction extraction (B: Cleaning liquid is homogeneously sprayed on the flooring by means of a spray appliance. After that, it is sucked up with clear water as described in A, without cleaning additive).

Textiles: Thoroughly vacuum the flooring or carpet, brush up depressed pile, if necessary and check for colour-fastness and water-resistance.

Application	Dilution
Preliminary stain removal: dilute with water	1 : 2 to 1 : 5
Pre-spray walkways and stains.	
Total area cleaning: per 1 litre of water:	10 g to 40 g
Operating temperature: + 20 °C to +50° C or observe the special specifications issued by the manufacturer of the flooring or the appliance.	

Step on the floor again only after it has been dried completely!

If the carpet has been shampooed before, there will be the risk of stronger formation of foam. In this case, pour some **Antifoaming Agent ES 100** in the waste water tank.

**Storage:**

Always keep containers well closed, out of sunlight and out of reach of children. Do not expose to high temperatures.

In closed original trading units at room temperature it is stable for at least 24 months.

**Packaging unit:**

1 l bottle, 12 pieces in cardboard box	Art.No.: 0410 - 00100
10 l canister, 60 canisters per pallet	Art.No.: 0410 - 01000
Other trading units on request.
