

## PUDOL XL

### Graffiti remover

**Area of application:** Special product for removing of paint smearing, adhesive residues, lines of felt-tip pens and paint pollutions on stone- and metal surfaces, glass and rubber.  
It is also suitable for plexiglass surfaces.  
For removing of unwanted spray paints and paints on busses, railway wagons, telephone booths, traffic signs and sign of building sites.

- Properties:**
- Characteristic odour
  - pH-neutral
  - Highly concentrated
  - Solvent-free
  - Free from CFC

<b>Technical data:</b>	<b>Nature of the product</b>	Liquid
	<b>Colour</b>	Colourless
	<b>pH value</b>	approx. 7

**Application:** Before use, check for material compatibility in an invisible position.  
It quickly and gently solvates unwanted spray paints and paints and then, they can easily be wiped away using a cloth.  
Apply it undiluted using a cloth and let it act for a short time. Treat the surface with a natural brush. If the pollutions are on a large surface, work from the outside towards the centre!  
Take the diluted paint layer off using an absorbent rag.  
Repeat this procedure for several times using a clean cloth.  
If surfaces are cleaned that are coated with water-dilutable varnishes, the application time should be reduced.  
For removing several paint layers on especially porous material, such as noise barriers and screen walls made of concrete, use **PUDOL XXL**.

**Storage:** In closed original trading units at room temperature it is stable for at least 24 months.

**Packaging unit:** 1 l bottle, 12 pieces in cardboard box                      Art.No.: 3100 - 00100  
Other trading units on request.

**Special information:** For commercial use only.  
The characteristics mentioned here are not binding. We reserve the right to make certain changes due to product improvements or necessary raw material replacement. Users are responsible for checking the suitability of the products for use on materials not mentioned.
